Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

2. **Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.** Claim 1 recites the limitation "the skateboard deck" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. **Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Williams et al. (US Patent 4,109,925).** Williams et al. discloses a truck (10) for a skateboard comprising a base structure (12) for attachment to the skateboard deck (16), a yoke assembly (32) having spaced-apart portions flexibly located by the base structure (See Fig. 3), and a king-pin assembly (See Fig. 3) including a king-pin (62) for clamping the base structure and the yoke assembly together, so that with a pair of skateboard wheels (See Fig. 2) carried by the truck, the arrangement is such that the rotational axis of the wheels is disposed substantially at right angles

Art Unit: 3618

to the longitudinal axis of the king-pin and said rotational axis of the wheels is also disposed at a steering head angle of between 45° and 20° to the vertical when the skateboard is at rest on the ground (See Fig. 3, angle P), and remains spaced from, and substantially parallel to the plane containing the radial arc of the wheel axis as it rotates about the steering head angle, said plane being substantially perpendicular to the steering head angle (See Fig. 3); **[claim 2]** wherein the steering head angle is substantially 30° to the vertical; **[claim 3]** wherein the longitudinal axis of the king-pin extends between the spaced apart portions flexibly located by the base structure (See Fig. 3); **[claim 4]** wherein the king-pin is located by a pair of axially-spaced bushes (72,74) of resilient material carried by the yoke assembly, and wherein said bushes are separated by an inwardly disposed flange portion of the yoke assembly (See Fig. 3); **[claim 5]** wherein one of said bushes is of frusto-conical form; **[claim 6]** wherein one of said bushes has chamfered edge (See Fig. 3); **[claim 7]** wherein the resilient material of said bushes is polyurethane; and **[claim 8]** wherein one spaced-apart portion of the yoke assembly is of part-spherical form (See Fig. 3).

Allowable Subject Matter

5. Claims 9-10 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

6. The prior art made of record in the accompanying PTO Form 892 and not relied upon is considered pertinent to applicant's disclosure.
